Summary

Software Engineer and Full-Stack Developer with hands-on experience across the MERN stack, .NET Framework, and Java, building scalable web and mobile applications. Skilled in designing REST APIs and delivering clean, maintainable code from database to UI. AWS and Oracle certified in AI/ML foundations, with a strong grounding in Data Structures and Algorithms.

Technical Skills

- **Languages:** Java, Python, JavaScript, PHP, C#
- **Frameworks & Libraries:** React.js, Node.js, Express.js, ASP.NET MVC, .NET Framework
- **Databases:** MongoDB, MySQL
- **APIs & Tools:** REST APIs, Swagger API, Visual Studio Code, Git, GitHub, Postman
- **Cloud:** AWS(EC2, S3, Lambda)
- **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Work Experience

Encodework Systems LLP July 2025 – November 2025
.NET Developer Intern *Surat, Gujarat, India*

- Developed and maintained web applications using ASP.NET MVC and the .NET Framework, implementing business logic and data-driven features across multiple modules.
- Designed and documented REST APIs using Swagger, improving integration speed and reducing onboarding time for consuming teams.
- Collaborated with cross-functional teams to debug and resolve production issues, improving application stability and reliability.

Encodework Systems LLP May 2024 – October 2024
Full-Stack Development Intern *Surat, Gujarat, India*

- Built full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js), delivering end-to-end features from database schema to responsive UI.
- Engineered RESTful APIs with Node.js and Express, handling authentication, data validation, and third-party integrations.
- Optimized front-end components in React to improve page load performance and overall user experience.

Projects

Sneakify – Sneakers Ecommerce Management System July 2025 – Nov 2025
Developed using .NET for backend APIs and React.js for the frontend. Implemented product management, user authentication, order processing, and secure RESTful API integration, with a focus on clean architecture, efficient data handling, and a responsive UI.

ROYALUX – Property Management System Dec 2024 – March 2025
Full-stack web application built with the MERN stack (MongoDB, Express.js, React.js, Node.js) to streamline property management. Enables owners, managers, and tenants to interact on a unified platform for listings, rent agreements, maintenance requests, and payments.

Education

Veer Narmad South Gujarat University June 2025 – March 2027
Master of Science, Information Technology *Surat, Gujarat*

Veer Narmad South Gujarat University June 2022 – March 2025
Bachelor of Science, Information Technology | CGPA: 7.61 *Surat, Gujarat*

Certifications

- **AWS Academy:** Machine Learning Foundations, Generative AI Foundations, Data Engineering
- **Spoken Tutorial:** Java, RDBMS PostgreSQL, PHP and MySQL, Advanced CPP
- **Oracle Cloud Infrastructure (OCI) 2025:** AI Foundations Associate
